Good evening,

We have reviewed your proposed amendments to the Wholesale Charging Rules and the Charges Scheme Rules within your June 2026 consultation document, and can confirm that we consider them to be reasonable and appropriate.

We are pleased to note that the concerns we raised in our response to your original consultation back in October 2025 appear to have been considered in your final outcome document and consider that our existing large user tariff approach will be in compliance with the revised rules.

Kind regards
